Dear Business Partners,

We would like to inform you of an important change regarding button production in Žirovnice. Following an evaluation of long-term market developments, production costs and the competitive environment, we have decided to discontinue button production in Žirovnice as of January 1, 2027.

The paint shop and automotive division of the company are not affected by this decision and will continue their operations in Žirovnice.

Last Opportunity to Place Orders

Until the end of 2026, we would like to offer our customers the opportunity to place orders for buttons for their future needs. If you are planning further purchases, we recommend contacting our Sales Department as soon as possible so that we can assess production possibilities and delivery schedules.

At the same time, we are preparing a clearance sale of our existing button stock. Selected items will therefore be available for purchase from current stock at special discounted conditions.

If you are interested in placing a final order or would like further information about the upcoming clearance sale, please contact us.

We would like to thank you for your many years of cooperation, trust and support.

Yours sincerely,

The Button Production Team
